Cookies are small text files generated by a website and stored in your internet browser, on your computer or your mobile device.

See information below to learn more about the types of cookies we use on our website.

### **Session cookie**

Temporary cookies which only exist during the time you use the website.

### **Persistent cookies**

Stay on your device after you've visited our website (unless you delete them).

### **Functional cookies**

Record information about choices that you have made, including the size of text. They also allow us to recognize you and tailor the website to suit your needs.

### **Information-gathering cookies**

Collect and store information about your browsing experience, including the websites you visit. These files do not collect personal identity information. Collected information is stored in such a way that ensures anonymity. These cookies are used to enhance website performance.

### **Cookies that are used to analyse the use of the website**

Count the number of visitors and track their website journey. This information helps us identify the website's most popular sections and optimize it to make it easier for our users to find required information. We make our website more user-friendly by testing various functions and parameters.

**To find out how our partners use cookies visit their websites by clicking on the links below. We are also providing the links which you can use to restrict third party cookies.**

We use Yandex.Metrics and Google Analytics that allow us to analyse our visitors' activity and enhance the website's performance. The data received by these services is anonymous and does not collect visitors' personal information (ie. does not identify our visitors).

We may use the data obtained together with third-parties – our partners – to improve the performance of our website and its individual sections.
